Third International Colloquium on Automata, Languages and Programming

July 20-23 1976, University of Edinburgh, Scotland

The Third International Colloquium on Automata, Languages and Programming is sponsored by the European Association for Theoretical Computer Science.

This colloquium, like its predecessors at IRIA, Paris (1972) and Saarbrücken (1974), is devoted to the theoretical bases of Computer Science. Topics are expected to include:

Formal Languages and Automata Theory,
Analysis and Complexity of Algorithms,
Mathematical and Formal Reasoning about Computations,
Semantics of Programming Languages and Data Bases.

This is not intended to be an exhaustive list of topics.
